PD Combo 1500 15” Subwoofer + 2x 8” tops

Easy to transport active 1500W sound system equipped with an intelligent digital sound processor, which ensures optimal and constant reproduction. Ideal for mobile DJs, karaoke shows, drive-in shows, presentations and other mobile applications. This professional set includes a 15" subwoofer (3" voice coil) and two 8" satellite speakers (midrange 1,5" voice coil and tweeter 1 " voice coil). The subwoofer covers a frequency range of 35Hz - 120Hz while the satellite speakers cope frequencies of 120Hz to 18kHz. This system is designed for "on the road" applications.

Supplied features : Speaker pole mount
Input connections : 6.3mm Jack, RCA, XLR (3-pin)
Output connections : NL-4 , XLR (3-pin)
Output power: Max : 1500W
Output power: RMS : 800W
Amplifier type : Class D
Diameter tweeter : 1"
Tweeter type : Dome
Diameter woofer : 15"
Magnet type : Ferrite
Magnet weight : 80 oz
Amount of woofers : 1
Voice coil : 3"
Frequency response : 35Hz - 18.000Hz
Dispersion : 90° x 60°
Impedance : 4 Ohm
Crossover frequency : 80Hz
SPL @ 1W/1m : 95dB
SPL max : 120dB
Weight : 44,40

- Class-D amplifier 500W + 2x 150W RMS
- Using BT wireless technology for audio streaming
- 24bit 96KHz DSP with 3 presets
- Electronic limiter
- Electronic crossover
- Volume control for subwoofer and satellite speakers
- +5dB switch for boosting input signal
- Mono/Stereo switchable
- NL2 output connectors
- Lightweight with integrated carrying handles
- Power on delay
- Including wheels and 2x 5m speaker cable
