Quick Start Guide

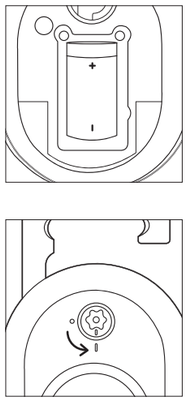

1. Pull the Padlock shackle to open position.

2. Turn Torx cap clockwise 90° with the Torx Screwdriver & push battery cover out.

3. Put in the CR2 Battery, close the battery cover and turn Torx cap counter-clockwise 90°.

4. Push the shackle to close position & the Padlock will be locked.

Unlock with Factory PIN Code
1234567890🔒

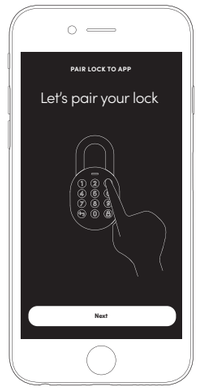

5. Download our igloohome App.
Available on App Store & Google Play.

App Store

Features

INTERCHANGEABLE SHACKLE

Customised versatility for you. Shackle is interchangeable to cater to your needs.

HARDENED SHACKLE

Designed for durability and resistance against tampering, the Padlock is made with hardened stainless steel and anti-corrosion materials.

CONVERTIBLE SHACKLE CONFIGURATION

Retained or removable shackle configurations available for versatility.

SECURED BATTERY COVER

The small details matter. Battery cover can only be removed with Torx security screw-driver to deter unwanted tampering.

Features

AUTO RELOCK

There's no wondering if you've secured your assets or properties. Auto relock gives you convenience with a peace of mind.

MASKING SECURITY CODE

Your PIN code will always be confidential. Throw off onlookers by entering random digits before your actual passcode.

KEYPAD SECURITY LOCKOUT

Keypad is disabled after several incorrect PIN code attempts to ensure your assets are always secure.

EMERGENCY JUMPSTART

Easily jumpstart the lock with a 9V battery as an emergency measure if batteries are drained.

igloohome

Hello

Welcome to the igloohome family! This is the beginning of your smart access journey. Congratulations on your new Padlock!
