

CNC ContourWash™ No Overspill	InstantDrain™ No Messy Sediment	Dual Roller Brushes Ultimate Clean	Dual Motors High-efficiency Wash	Quick Dry 40°C Direct Air Blow

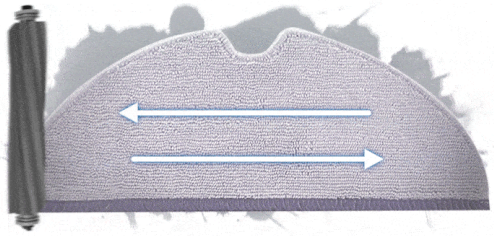

CNC ContourWash™

No Missing Spot, No Overspill

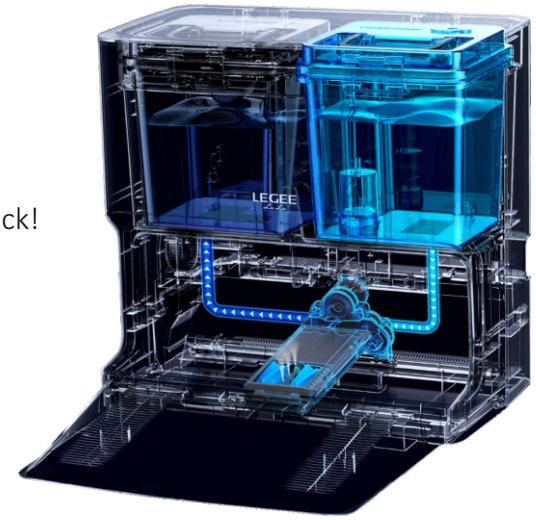

LEGEE LuLu comes with dual petite silicon roller brushes. Adopting the idea of the computer numerical control (CNC) machine, the brushes move horizontally while LEGEE-D8 moves vertically, the mop gets cleaned precisely and thoroughly.

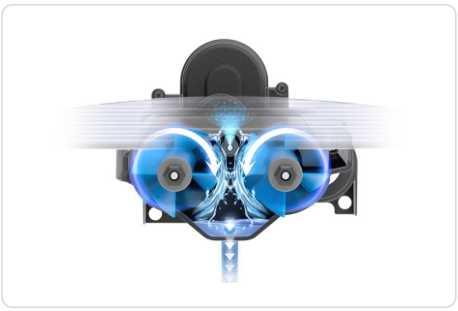

LEGEE LuLu
the 4-in-1 Harbor

Water Tank Refilled and Battery Recharged, Check!
Mopping Cloth washed and Dried, Check!
Get LEGEE ready every time!

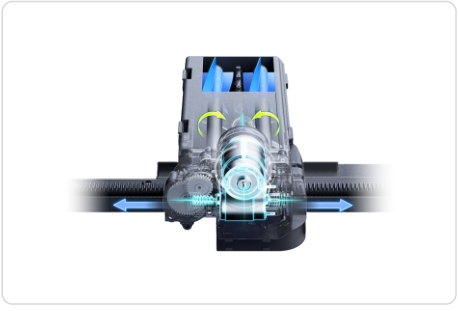

Dual Roller Brushes
Ultimate Clean

The two brushes roll inward to scrape down the dirt efficiently and the two motors design allows LEGEE LuLu to clean every inch of the mop completely.

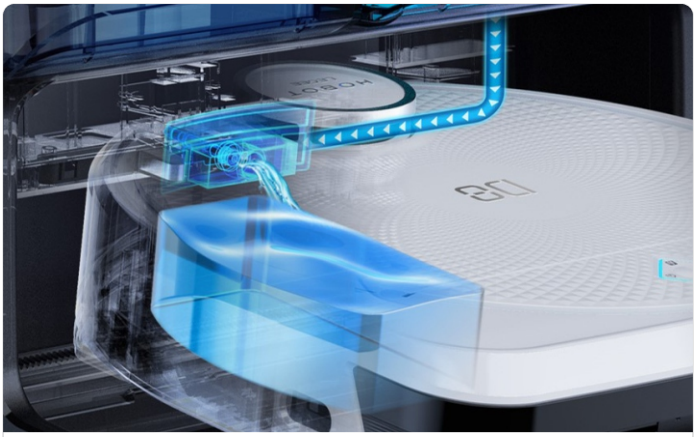

InstantDrain™
No Messy Sediment

The bidet sink right under the roller brush moves with the roller brush to catch and pipe out the waste water simultaneously. No waste water sediment will fall on the base plate, cause no cloggage and free you from manual maintenance.

Dual Motors
High Efficiency Wash

The roller brushes roll in high-speed and the washing module gradually move across the mopping cloth to remove the dirt completely.

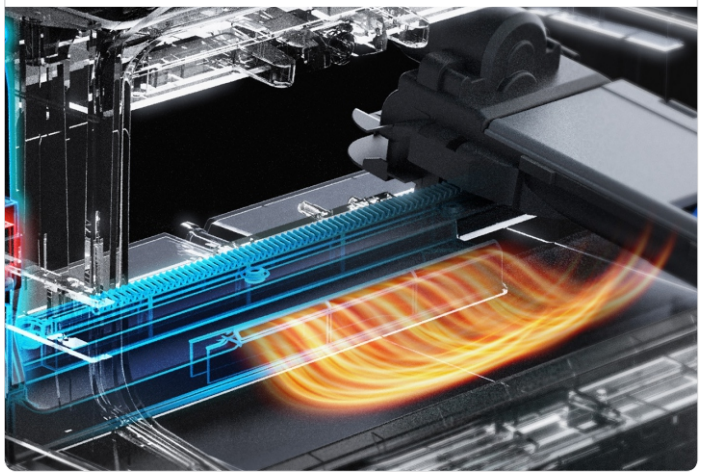

Auto-Refill & Battery Recharge

Not only charge the battery, LEGEE LuLu further free your hands with the auto-water-refilling design, LEGEE is always ready for its next task.

Quick Dry with the 40°C Direct Blow

The heated air blows directly through the specially designed wind tunnel, making the damp cloth to dry evenly, quickly and energy-efficient.

Model No.	LuLu
Key Feature	Wash / Dry / Refill / Recharge, 4-in-1
Roller Brush	Dual TPU Roller Brushes
Roller Brush Length	5.5 cm
Washing Method	CNC Contour Wash™ + Inward Brushing = No Overspill
Roller Brush Spin Rate	600 times/min.
Waste Water Colletion	InstantDrain™ : No Messy Sediment
Dryer Temperature	40°C
Dryer Power Consumption	25W
Water Tank Capacity	Clean Water 3.2 L Waste Water 2.8 L
Dimensions (L x W x H)	w/o Ramp 410 x 280 x 390 mm w/ Ramp 410 x 486 x 390 mm
Input Voltage	100-240 VAC, 50-60Hz
Power Consumption	20V / 3A, 60W
