FreshPedi Mint

Safely, easily and painlessly removes calluses and rough skin

100% Waterproof, suitable for wet and dry conditions

Waterproof Electric Callus Remover

Luscious, silky smooth feet instantly with Silk'n FreshPedi. The waterproof electric callus remover works with 3 different grinding discs and a vacuum system to ensure a mess-free experience. Are you ready to achieve soft and well-groomed feet in any condition, be them wet or dry?

- Safely, easily and painlessly removes calluses and rough skin
- 100% Waterproof, suitable for wet and dry conditions
- The vacuum system offers a mess-free treatment
- Up to 120 minutes use on one full charge in the low speed setting
- 2 speed settings and a LCD-screen

Electric callus remover with built-in vacuum system

Silk'n FreshPedi features 3 different rotating grinding disks (Fine, Medium & Coarse) for you to choose which one is best for your feet. The device allows you to remove the rough and calloused skin from your feet safely and efficiently. What is more, the built-in vacuum system ensures suction of the dead skin cells and prevents from getting on your floor.

100 % Waterproof

The IPX7 Waterproof technology of Silk'n FreshPedi provides access to both wet and dry treatment conditions. Now, you can use your electric callus remover safely while your feet are wet. Moreover, you can just clean the grinding head under tap water and not worry about it getting damaged. Safe and hygienic! Just remember not to submerge it under deep water for too long.

Up to 2,200 rotations per minute

Silk'n FreshPedi has 2 speed settings, low and high, which you can track on the built-in LCD-screen. With up to 1,900 rotations per minute in the low-speed setting and up to 2,200 rotations per minute in the high-speed setting, this device ensures a fast and proper removal of calluses and hard skin. Hold the on the feet for a few seconds to file it safely. Due to its ergonomic and sleek design, the callus remover is easy to use.

Rechargeable

Silk'n FreshPedi is completely rechargeable so you do not need to worry about changing its batteries or a battery capacity that gets weaker after each use. You can appreciate up to 120 minutes of use after a full charge! Recharge your FreshPedi via your computer or wall socket using the accompanying USB-cable. Now you can rely on a powerful device with a long lasting battery life which you can use wirelessly!

Specification
