DATASHEET

HyperX Shield

CLEAN UP YOUR RECORDING.

If you're a streamer, content creator, or aspiring voiceover artist, the HyperX Shield Microphone Pop Filter will help clean up your audio and improve your recordings. This useful microphone accessory can help filter out those plosive puffs of air that result from p sounds. It features a universal clamp and a flexible silicone gooseneck that easily attaches to most microphone setups. For HyperX QuadCast, QuadCast S, and ProCast owners, it's even easier, simply detach the gooseneck, and directly attach the filter to the shock mount.

Key features

Standalone Universal Pop Filter

Defend your microphone from plosive sounds and improve your recording quality. The HyperX Shield's corrosion-resistant metal mesh filter is also durable and easy to clean.

Toolless Mounting to Most Microphones or Stands

With its rubber-padded c-clamp, the adaptable HyperX Shield can be easily attached to most mics or stands, without metal-to-metal contact.

Flexible Gooseneck Mount

The 13.5in (350mm) flexible gooseneck mount allows you to adjust the Shield into an optimal position, which it easily holds. It features a silicone surface for easy cleaning and sanitizing.

Compatible with Most HyperX Shock Mounts

The HyperX Shield mounts seamlessly to the shock mount found on the HyperX QuadCast and ProCast microphone families.

Product Names	**Product name**: HyperX Shield
