Bright Lux

4-in-1 facial brush: Cleansing, LED light, Near-Infrared and cooling

Reduces puffy eyes, boosts collagen production and tightens the skin

Clean and tighten the skin with Silk'n Bright Lux! A multipurpose device which not only deep cleanses the skin but also leaves it younger looking. The new and improved ultra soft silicone material ensures an even gentler cleanse for all skin types. The rear side of the device features LED lighting in 4 different colours, Near-Infrared technology and a cooling function.

- For deeply-cleansed skin and smaller pores
- 5 times more effective than manual cleansing
- Reduces puffy eyes, boosts collagen production and tightens the skin
- Uses LED light (red, blue, yellow and purple), Near-Infrared and Cooling technology (6°C ± 3°C)
- Ultra-hygienic and soft silicone material

Cleanse your face with an electric face brush

Silk'n Bright Lux has long silicone studs that remove dirt and make-up residue in seconds, gently exfoliate the skin, and unclog pores. From the very first cleanse, you will notice a huge change in the softness and glow of your skin. The resulting absence of impurities will allow skin care products to be absorbed more easily. The silicone material of the facial brush has been improved and is ultra soft, making it suitable for all skin types.

Boost your skin with LED

Both sides of this versatile brush are functional. The rear side features four coloured LED lights, Near-Infrared technology and a Cooling function. These improve the skin by reducing fine lines, puffy eyes and acne-related redness. They also boost collagen production, making your skin firmer and tighter.

Benefits of each function:

Red LED light, 633nm + Near-Infrared, 850nm Reduces fine lines and wrinkles, stimulates collagen, and helps to improve blood circulation.	**Blue LED light, 463nm + Near-Infrared, 850nm** Reduces acne-related redness and imperfections for clearer skin.
Yellow LED light, 592nm + Near-Infrared, 850nm Improves skin hydration and soothes dry, sensitive skin.	**Purple LED light, 463-633nm + Near-Infrared, 850nm** Anti-ageing and reduction of skin imperfections to improve the skin's vitality and radiance.
Red LED light, 633nm + Near-Infrared, 850nm + Cooling Reduces puffy eyes for a brighter look.	

Additional functions of the electric facial cleanser

The front of the electric facial cleanser features high-frequency vibration and pulsation modes that offer 7 different speed settings ranging up to 8,000 vibrations per minute! During your cleansing and LED sessions, the smart interval timer beeps to remind you to move on to a different area of your face and it also shuts off automatically. Bright Lux is rechargeable and has an operating time of up to 200 minutes on a full charge. In addition, it's 100% shower proof, so it can be used in the shower or bath.

Ultra-hygienic and a money-saver!

Unlike standard electric facial cleansers, this silicone facial cleanser resists the build-up of bacteria, ensuring an ultra-hygienic cleansing routine day in, day out. Silk'n Bright Lux also saves you money because you never need to purchase new brush heads again.

Travel lock and pouch

Silk'n Bright Lux has a handy travel lock feature, preventing the device from switching on unintentionally. The facial brush also comes with a pouch, so you can take the device with you wherever you go. The pouch not only protects the device against damage but also protects the contents of your luggage from possible leakage.

Specification
