Delock Wireless Display USB Type-C™ Adapter Full HD - HDMI + VGA with Card Reader and Hub

Description

This adapter by Delock can be used to **wirelessly** transmit an audio and video signal in **1080p** format **over a range of up to 10 m**. Only the transmitter has to be connected to the USB Type-C™ port of the device and the receiver via **HDMI or VGA** cable to a TV, projector or similar. **Both video outputs can be used at the same time** to display the signal on two displays at the same time.

Integrated card reader and hub
Two built-in USB Type-A ports allow the use of peripherals, an **SD** and a **Micro SD** slot allow the use of memory cards.

Easy transport
For transport, the transmitter unit can easily be inserted into the receiver unit's deepening, where both parts are held together by a magnet.

Plug & Play
After connecting the two parts of the device, the connection is automatically established, no drivers need to be installed or settings made.

Specification

• Connectors:
Transmitter:
1 x USB Type-C™ male
2 x SuperSpeed USB (USB 3.2 Gen 1) Type-A female
1 x SD slot
1 x Micro SD slot
