Delock Multi-function tool for crimping and stripping of coaxial cable AWG 10 - 24

Description

This tool by Delock can be used to strip and cut the most common types of coaxial cable quickly and easily in a single operation.

All in one
The multi-function pliers **automatically adjust to the diameter of the wire currently being processed** and allow solid or stranded wire to be cut and stripped. The length of the area to be stripped can be adjusted individually with the help of the yellow plastic adjustment.
In addition, there is a **crimping facility in the centre of the handle for insulated and non-insulated cable lugs, wire end ferrules and similar binding posts.**
The pliers are made of durable material and the rubberised handles provide a firm grip during the work process.

Specification

- Metal pliers with plastic handles
- Built-in cutter and stripper
- Coaxial cable suitable for cutting and crimping: AWG 10 - 24
- Connectors suitable for crimping: e.g. cable lugs, wire end ferrules, binding posts
- Colour: yellow / black
- Weight: ca. 312 g
- Dimensions (LxWxH): ca. 210 x 100 x 30 mm

System requirements

- Coaxial cable suitable for crimping and cutting
- Connectors suitable for crimping

Package content

- Crimping tool

Item no. 90553

EAN: 4043619905539

Country of origin: China

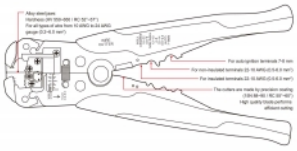

Package: Blister
