Roomba Combo™

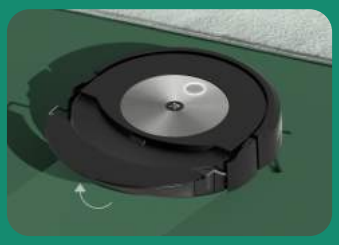

Robot Vacuum & Mop

j7+

The first truly hands-free 2-in-1

Introducing Roomba Combo™ j7+, the first truly hands-free vacuum and mop robot—and the only one with a mop that lifts completely away from carpet.

A mop that keeps carpets dry

Unlike other 2-in-1 robots, when it senses carpet, the mop pad automatically lifts up and away to the top of the robot, preventing wet messes. Just let Roomba Combo™ j7+ do its thing, and it all gets clean.

Knows exactly what to avoid

We designed it to be intelligent. The PrecisionVision Navigation system identifies exactly what's ahead, then behaves accordingly. When it senses objects like cords, socks and even pet waste, it steers clear.

Roomba Combo™ j7+ robot vacuum & mop features

This is a new kind of clean

Roomba Combo™ j7+ is the first truly hands-free 2-in-1 in the world. Just let it do its thing, and your carpet and hard floors get clean in a single mission of 1,000 square feet.

The only truly automatic retractable 2-in-1

Other 2-in-1s lift their mops just millimeters from carpet—if at all. But ours lifts to the top of the robot, preventing wet messes entirely.

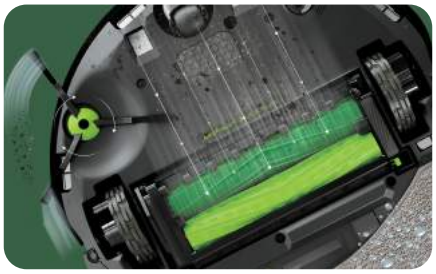

Cleans where you want, when you want

Thanks to its advanced iRobot OS, it understands where to clean, and can pinpoint the targeted areas you want it to focus on. You can even set the amount of cleaning solution you want the mop to use—different levels for different rooms, if you prefer.

It just knows what to clean—and what to avoid

Its intelligent iRobot OS—the brains behind the clean—enables it to detect and avoid obstacles like clothes, backpacks, pet toys, and more.

Incredibly powerful vacuum cleaning

4-Stage Cleaning combines our Edge-Sweeping Brush, Dual Multi-Surface Rubber Brushes, Power-Lifting Suction and first-of-its-kind mopping. On hard floors, it mops and vacuums at the same time. Then on carpet, it lifts its mop pad safely away from your carpet and continues with powerful vacuuming.

Breathe-easy bag removal

Its advanced bags trap tiny particles—as small as 0.7 microns—and when you take a full bag out, it seals itself, preventing a dreaded dust cloud.
