Hair dryer with brushless motor 1600 W

Get ultra-fast results with the powerful brushless motor reaching up to 110,000 rpm. Dry and style your hair in an instant with low temperatures and experience the multiple benefits of our Premium Water Ion technology that ensures less frizz and smoother hair. With its dynamic high-end LED display you can easily choose the setting your prefer.

- Concentrated air flow for ultra-fast drying
- Premium water ion technology for less frizz
- Brushless motor reaches up to 110,000 rpm
- 6 temperatures, 1 cool shot function and 3 speed levels
- 3 meter long cable for more freedom of movement
- Includes 2 magnetic attachments, heat resistant mat and travel pouch

Powerful concentrated air flow
With SilkyAir Pro's brushless motor with 110,000 rpm it is able to generate a powerful concentrated air flow that can reach up to 76 km/h. This will dry and style your hair more quickly than ever before and ensures volume.

Hair drying without heat damage
This hair dryer measures the air temperature 50 times every second and adjusts it automatically when the temperature is too high, making heat damage something of the past.
Due to the concentrated air flow and the low temperatures you are able to finish more quickly maintain hair quality.

Reduce split ends, prevent frizziness and improve hair quality
SilkyAir Pro uses Premium Water Ion technology. It draws water from the air and converts it into charged micro water particles. These particles penetrate deep into the hair cuticles. Afterwards, the cuticles tighten to reduce split ends and prevent frizziness. This technology ensures maintained moisture balance, improved hair quality and stronger hair. For more shine and a healthier look.

Magnetic attachments
