The amazing 6000 Series heavy-duty wall mounts

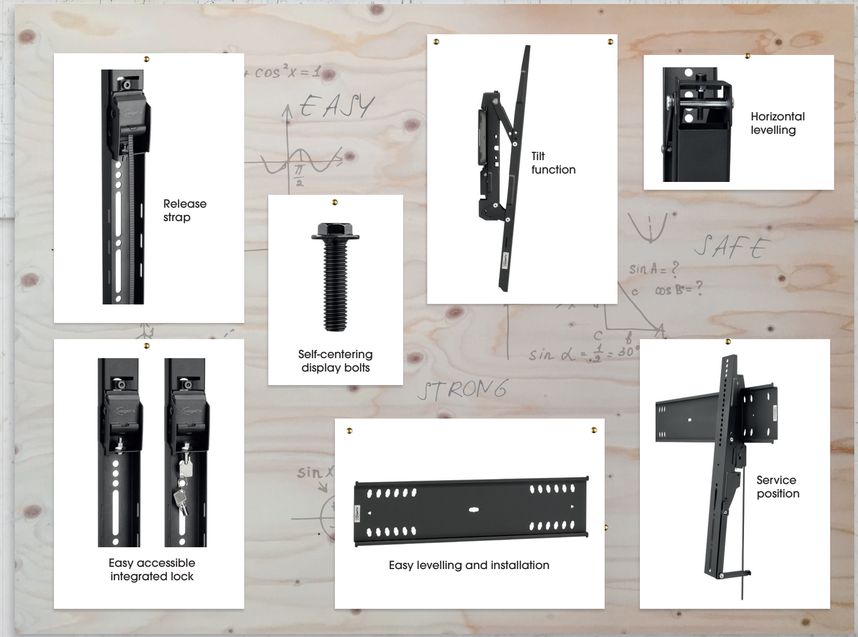

vogel's®

The amazing 6000 Series of heavy-duty wall mounts

Meet our 'next level' professional wall mounts. This series combines all we know about quality and ease of installation. For instance, post-installation levelling, self-centring screws and easy access for maintenance. All of this for displays up to 120" and 165 kg.

The design of the 6000 series is both robust and elegant. There are three models, each available as a fixed wall mount or tilting up to 15°. In addition, all types have an aesthetically integrated anti-theft lock. As always with Vogel's, these wall mounts come with a 5-year material and manufacturing error warranty.

About vogels.com/lab
At Vogel's, we don't compromise on quality. That's why we test all our products extensively in our own 'lab'. It's no coincidence that all Vogel's products are TÜV5 certified and that all our wall mounts can hold up to five times the certified weight. Normally, our testing space is strictly off-limits to everyone except our engineers. But this time, we're making an exception. See for yourself how strong the 6000 series is: watch the test on **vogels.com/lab**.
