FaceTite Prestige Cordless

Reduces wrinkles and fine lines, restores collagen and elastin fibres

Cordless to let you move around more freely

Wrinkle reduction & skin tightening (+ 7 extras)

This anti-ageing device tightens the skin, reduces wrinkles and crow's feet, and restores collagen and elastin fibres, without surgical intervention, leaving you with lifted, younger-looking and radiant skin. Thanks to the cordless function, you can use the FaceTite Prestige wherever and whenever you want. Also ideal for travelling! This package includes everything you need for a complete FaceTite treatment, including the Silk'n Bright silicone face cleansing brush and the concentrated Silk'n Hyaluronic Serum.

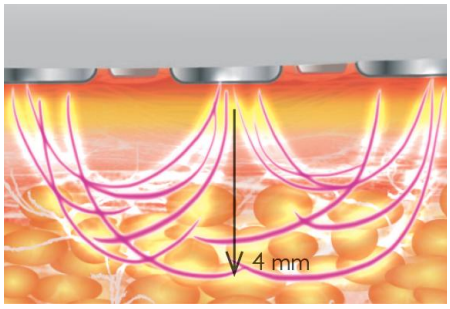

- Reduces wrinkles and fine lines, restores collagen and elastin fibres
- Builds volume, tightens skin and lifts facial contours
- Strengthens the deeper layers of skin and improves skin structure and elasticity
- Blurs superficial sun and age spots
- Cordless to let you move around more freely

Cordless use

No more hassle with cables and adaptors during your treatment? Try the Silk'n FaceTite Prestige! The cordless function offers you much more freedom to move. This means you are no longer bound to one place and you can treat your face wherever and whenever you want. Watching TV, in bed or perhaps while you're relaxing in the garden.

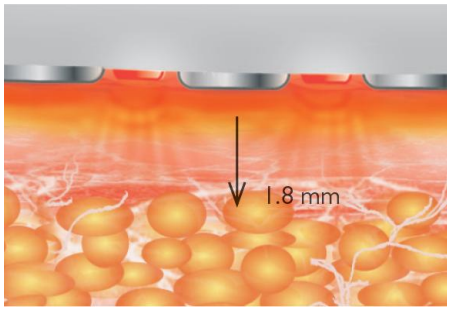

Skin rejuvenation with HT™ technology

To rejuvenate the skin, Silk'n FaceTite uses HT™ (Home Tightening) technology. Unlike other anti-ageing devices, FaceTite Prestige combines not one but three (!) energy sources for more efficiency: Bipolar RF (radio frequency) energy, LED light energy and IR (infrared) heat energy. This combination ensures that the collagen and elastin fibres in the skin contract and are reconstructed. This allows the skin to repair itself from the inside out.

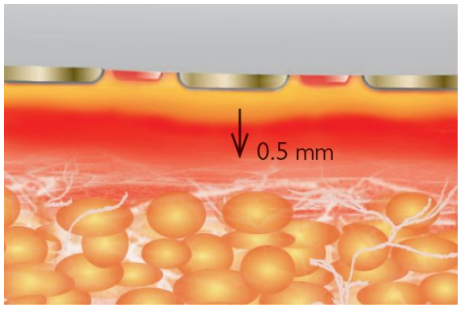

Bi-Polar RF energy

Firms the deeper layers of the skin down to 4mm to lift the facial contours and reduce wrinkles

LED light energy

Rejuvenates the skin and restores its natural balance

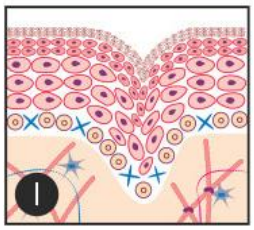

IR Heat Energy

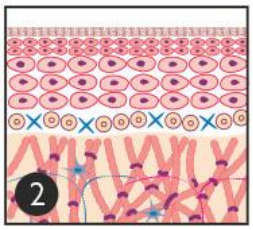

Improves the texture of the skin

Clinically proven

The effectiveness of HT™ technology has been researched in several clinical studies. In a blind independent review, before and one month after 20 fortnightly sessions, the results showed that 96% of participants had visibly fewer wrinkles, with no adverse side effects.

BEFORE:
Damaged and weakened collagen and elastin fibres.

AFTER:
Collagen and elastin fibres contract and the skin repairs itself from within.

Safe

Silk'n FaceTite Prestige has been thoroughly tested and the conclusion is that it is safe for both women and men to use at home. It is suitable for all skin types and skin tones, including darker skin tones. It can be safely used on the entire face and neck, including forehead wrinkles (frown lines), crow's feet and under-eye wrinkles (except the eyelids). There is also no recovery period, so you can get on with your day-to-day activities straight away. And you can sunbathe! However, it is recommended that you use sunscreen with a high SPF due to the ageing effect of the sun's rays.

FaceTite Prestige, the complete anti-aging package

This package includes everything you need for a complete rejuvenation treatment. Besides a luxury beauty case, it also comes with a pouch, a headband, the concentrated Silk'n Hyaluronic Serum and the Silk'n Bright silicone face brush. These last two items are explained below.

Silk'n Hyaluronic Serum for an instant anti-aging result

Hyaluronic acid occurs naturally in our skin. As we get older, our skin produces less and less of it, resulting in fine lines, wrinkles and less elastic skin. As such, hyaluronic acid is one of the key ingredients in our Silk'n Hyaluronic Serum. Hyaluronic acid's hydrating effect reduces the depth of wrinkles and fine lines and stimulates the production of collagen.

This effect is significantly enhanced when combined with the heat produced by the FaceTite. In fact, this effect is so powerful that your skin instantly looks younger, smoother and firmer after the treatment. A study revealed that wrinkles improved by 66%, macropores by 50% and skin texture by 44% compared to the results of using FaceTite without Silk'n Hyaluronic Serum.

There are three ways of using the serum: on a daily basis, during the treatment with FaceTite for an instant rejuvenating result, or after the treatment for intensively hydrated and radiant skin.

Silk'n Bright – a silicone face brush for deep cleansing and massage

Before starting your treatment with FaceTite Prestige, your skin should be clean and free of make-up. And Silk'n Bright, a double-sided silicone facial cleanser, is the best way to achieve this! The front of the brush has silicone studs to deep-cleanse the face with high-frequency vibrations. The brush removes dirt and make-up residue, reduces the size of the pores and gently exfoliates the skin. On the back of the brush the silicone ridges give your skin a relaxing massage for improved blood circulation and deeper penetration of skin care products. Bright is also delivered with a travel pouch, so that you can take the device on holiday with you. The hard travel case protects the device against damage, but also protects your luggage against moisture.

Specification

Product name	FaceTite Prestige Cordless
Treatment areas	face, neck
Technology	HT™ Technology: Bi-Polar Radio Frequency (RF) Energy, LED Light Energy, Infrared (IR) heat energy
Number of levels	4
Power supply	Battery
Battery level indicator	Yes
Rechargeable	Yes
Cordless	Yes
Usable while charging	Yes
Wet use	No
Package contents	1x FaceTite Prestige Cordless 1x FaceTite power supply 1x Bright device 1x Bright power supply 1x Hairband 1x Slider Hyaluronic Gel 1x Intense Nourishing Hyaluronic Serum 1x Beauty case 1x Instruction manual
